

Our Curricular Goals

Alongside the EYFS guidelines and development matters we at Little Poppets have a vision for Early Years that Embraces childhood and nurtures every child to be the best that they can be. Our curricular goals aim to give children a firm foundation and passion for life-long learning.

We want all of our little poppets to:

- ❖ Develop a sense of belonging, building confidence around who they are whilst developing a natural empathy and understanding towards others.
- ❖ Lead their own learning through play-based activities that are carefully scaffolded by experienced practitioners ensuring that every child is able to reach their full unique potential.
- ❖ Be curious learners and investigators who are keen to have a go and find out more.
- ❖ Develop a genuine love of books, exploring language, rhythm and rhyme to extend their vocabulary and inspire their imagination.
- ❖ Have a healthy relationship with food. To be encouraged to explore a wide range of foods whilst understanding what they need to keep them healthy.
- ❖ Explore number and simple number bonds through real life, every day, meaningful experiences.
- ❖ Have access to an outdoor play space that encourages and challenges physical activity and promotes a sense of well-being through all of the seasons.
